I am alerting you to the above City meetings because each has the potential to have major impact on the quality of lives of Tucson Residents. If we do not choose to be involved early on and to continue to follow the items as they move through the system, we are sure to have no voice in the decisions made. Your TRRG Board continually advocates for good public processes (see letter sent to Mayor/Council last month), but all of us must stay alert and involved to ensure we are responsive to fast-moving new initiatives.

The theme of our Annual Meeting, Strengthening Public Participation, becomes more relevant as each day passes. Hope to see you April 30.
