

CONCERNED ABOUT CITY of TUCSON SUPPORT FOR NEIGHBORHOODS AND PLANNING?

Tucson Residents for Responsive Government (TRRG) believes stakeholders should have a voice in City decision-making. Support for neighborhood interests and collaborative City planning has been neglected too long. We ask that Mayor and Council engage the community in identifying the problems created and solutions needed.

GONE: Department of Neighborhood Resources
Department of Urban Planning and Design
Office of Integrated Planning

TODAY: Planning and Development Services (PDSD)
Its organizational chart (Dec. 2018) lists no staff specifically assigned to Neighborhood Resources and those areas identified as **Advanced Planning** and **Current Planning** appear primarily focused on processing current PDSD applications.

If YOU want the community to have the opportunity to discuss how current priorities and policies affect neighborhoods and planning, sign TRRG's petition:

City of Tucson Mayor and Council,

Support for neighborhood interests and collaborative City planning has been neglected too long. Please engage the community to identify the problems created and solutions needed.

Visit TRRG's website prior to May 15, 2019 to add your name:

<https://tucsontrrg.org/>

Please pass this announcement along to others who share our concerns. TRRG will pass all your names on to Mayor and Council when it presents at a Mayor/Council Study Session in late Spring.
